

# Building an ISO 27001-Compliant Cyber Security Program: Getting Started

with Marc Menninger

---

## Demonstrate Compliance with Clause 4.1

- Work with the subject matter experts in your organization to build a list of external issues that could impact your ISMS (the more detailed, the better)
- Do the same for internal issues that could impact your ISMS

## Demonstrate Compliance with Clause 4.2

- Build a list of interested parties, both internal and external, that are relevant to your ISMS
- Then build a list of their requirements that are relevant to your ISMS
